APPLICATION

1282-65540

Honorable James H. Welsh
Commissioner of Conservation
P.O. Box 94275
Baton Rouge, LA 70804-4275

Re: Substitute Unit Well – Exceptional Location
17900 TUSC RA SUI
Unit Well - Exceptional Location
18800 TUSC RA SUI
Alternate Unit Well – Regular Location
19000 TUSC RE SUB
Morganza Field
Pointe Coupee Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made of behalf of **ENERGY PRODUCTION CORPORATION** for the calling of a public hearing, after ten (10) days legal notice, to consider evidence relative to the issuance of orders concerning the following matters pertaining to the **17,900' Tuscaloosa Sand, Reservoir A**, the **18,800' Tuscaloosa Sand, Reservoir A**, and the **19,000' Tuscaloosa Zone, Reservoir E**, in the **Morganza Field**, Pointe Coupee Parish, Louisiana, to-wit:

1. To permit the applicant, Energy Production Corporation, to drill, designate and utilize its F&L Planters 77 No. 1 Well as the substitute unit well for the unit designated 17900 TUSC RA SUI at the location shown on the plat attached hereto, or any other location no closer than 10 feet to any unit line, which is in exception to the spacing provisions of the Office of Conservation Order No. 1102, effective October 20, 1980;

-
2. To the extent not inconsistent herewith, to continue in effect all pertinent provisions of Office of Conservation Order No. 1102, effective October 20, 1980, as amended and supplemented by the 1102-A Series of Orders;
 3. To permit the applicant, Energy Production Corporation, to drill, designate and utilize its F&L Planters 77 No. 1 Well as the unit well for the unit designated 18800 TUSC RA SUI at the location shown on the plat attached hereto, or any other location no closer than 10 feet to any unit line, which is in exception to the spacing provisions of the Office of Conservation Order No. 1102-E, effective November 1, 2005;
 4. To the extent not inconsistent herewith, to continue in effect all pertinent provisions of Office of Conservation Order No. 1102-E, effective November 1, 2005;
 5. To permit the applicant, Energy Production Corporation, to drill, designate and utilize its F&L Planters 77 No. 1 Well as an alternate unit well for the unit designated 19000 TUSC RE SUB at the location shown on the plat attached hereto, or any other legal location within said unit, which is in compliance with the spacing provisions of the Office of Conservation Order No. 1102-B-5, effective October 16, 2001;
 6. To find that the proposed alternate unit well will recover reserves from the 19,000' Tuscaloosa Zone, Reservoir E, underlying 19000 RE SUB which cannot be economically and efficiently recovered by any existing well within said unit;
 7. To authorize the operator of 19000 TUSC RE SUB to produce the unit allowable from the unit well, the alternate unit well, or both, at its discretion;
 8. To the extent not inconsistent herewith, to continue in effect all pertinent provisions of Office of Conservation Order No. 1102-B-5, effective October 16, 2001, as amended and supplemented by Office of Conservation Order No. 1102-B-7, effective June 4, 2002; and
 9. To consider such other matters as may be pertinent to this application as shown by the evidence presented at the public hearing.

The 17,900' Tuscaloosa Sand, Reservoir A, in the Morganza Field, was previously defined in Office of Conservation Order No. 1102, effective October 20,

February 2, 2006

Page 3

1980, and was redefined by Office of Conservation Order No. 1102-A-24, effective November 1, 2005.

The 18,800' Tuscaloosa Sand, Reservoir A, in the Morganza Field, was previously defined in Office of Conservation Order No. 1102-E, effective November 1, 2005.

The 19,000' Tuscaloosa Zone, Reservoir E, in the Morganza Field, was previously defined in Office of Conservation Order No. 1102-B-5, effective October 16, 2001, and was redefined in Office of Conservation Order No. 1102-B-7, effective June 4, 2002.

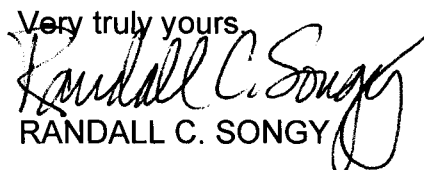

Pertinent data relating to the proposed application can be obtained, AT THE COST OF THE REQUESTING PARTY, by contacting Frank Harrison, Jr., 200 Audubon Blvd., Lafayette, LA 70503 (Phone: 337-232-4031).

The original unit well for the 17900 TUSC RA SUI, the Amoco Production Co. – F&L Planters No. 1 Well, has been plugged and abandoned, and the proposed substitute unit well is expected to recover reserves from the 17,900' Tuscaloosa Sand, Reservoir A, underlying 17900 TUSC RA SUI which cannot be recovered by any existing well in said unit. The Energy Production Corp. – F&L Planters 77 No. 1 Well is currently being drilled as a straight hole at the location shown on the attached plats. The request for the 10 foot tolerance is included as a precautionary matter in the event the applicant needs to take directional control of the well in order to prevent its natural drift from taking it across the unit line.

There is attached hereto and made a part hereof plats reflecting the location of the pertinent wells and unit boundaries, and a list of the names and addresses of the interested parties to whom this unitization proposal is being sent. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished ONLY to the Commissioner of Conservation. However, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties and Interested Parties.

Finally, enclosed herein is our check in the amount of \$2,265.00 made payable to the Office of Conservation in payment of the required hearing application fee.

Very truly yours,

RANDALL C. SONGY
